Longworth is one of the UK's leading roofing and cladding contractors based in St. Helens, Merseyside.

To work at Longworth you've got to be a certain kind of person: passionate about what you do; passionate about what we do. You've also got to buy into how we work as a team - going above and beyond for your colleagues each and every day.

In return, our valued staff can count on a career that's as rewarding as it is inspiring.

We're proud of our great team here but we're growing quickly and are now on the look-out for a hardworking, dedicated Graduate Design Engineer to help us achieve our goals.

The successful candidate will work under the supervision of experienced designers to provide detailed design and installation drawings for a wide variety of external envelope systems on projects up to £3m.

Candidates will be required to have recently graduated from a relevant construction design based course and be able to demonstrate technical skills and background knowledge that will be developed with on-the-job experience and training with Longworth.

Working as part of a team in a fast paced environment, you must be able to work accurately within strict timescales. The ideal candidate will be technically creative with a strong work ethic.

The post holder will:

1. Assist Senior Designers in all aspects of the design process from initial post-tender to site completion.
2. Liaise with main-contractors and sub-contractors to obtain project information for the design team.
3. Work to tender specifications and Senior Designer guidance to produce AutoCAD designs from plans/elevations/details etc.
4. Track changes and report variations to Senior Designers, site team & commercial teams.
5. Prepare schedules of materials and fabrication drawings for procurement.
6. Attend site visits with Senior Designers and Contract Managers.
7. Liaise with site teams and assist Document Control processes.

Essential skills include AutoCAD drawing knowledge, good problem solving abilities and time management.

The position is full time (8-5, Mon-Fri) based in the main office in St. Helens and is currently open to be filled as soon as possible.

We understand that for most people reading this, this will be their first step into the professional world. But this is another area where Longworth are different. Our culture is very much family-orientated and our experienced team will make sure that you feel welcome from your first day.

So, if you want to work in a lively and driven environment where hard work and enterprise are rewarded with impressive benefits and strong career prospects, get in touch.

**Please contact Longworth's design manager, David Chisholm to apply and for more information**
