

Quality Policy Statement

2019-2020

Longworth has implemented a management system that complies with the ISO 9001:2015 standards and is externally accredited to UKAS standard.

In order to maintain and continuously improve our quality management we are committed to:

- Establishing, monitoring and reviewing and improving business performance
- Providing training to our employees to ensure competence and understanding of the quality standards and delivering a quality product to our clients
- Ensuring all employees understand their own responsibilities in relation to quality management
- Providing and maintaining equipment, facilities and conditions appropriate for the tasks being carried out
- Regularly auditing the quality management system
- Communicating relevant information throughout the business and our supply chain
- Encouraging employees to provide feedback and recommendations in relation to the quality management
- Investigating any instances where the standards of the management system are not upheld

We commit to review and revisit our policy at least on an annual basis with a view to continuous business development. As part of the review process we encourage employees to provide feedback and take part in the review of the management system.

				
Paul Smith Managing Director	Robert Hughes Contracts Director	Karl Smith Commercial Director	Steven Jones Pre-Construction Director	Stephen Barnett Procurement Director
